

✔ Innovative Chemie für Industrie und Umwelt in Berlin GmbH & Co. KG

ICB GmbH & Co. KG was founded in 1990. As a medium-sized company it is our aim to develop and manufacture chemicals and preparations for specific industrial applications.

We will find individual solutions and can customize our products to serve the needs of our customers.

We have specialized in the following fields:

- ↳ Cleaning agents and process chemicals for the various treatment stages of silicon and other semiconductor materials in the electronics and photovoltaics industry
- ↳ Cleaning agents, if required with additives ensuring protection against corrosion, for the cleaning and treatment of engineered surfaces (metal, glass, ceramic and plastic)
- ↳ Electroplating additives and processes for the manufacturing of printed circuit boards
- ↳ Chemicals and processes for conventional electroplating
